

## UC MERCED MEDICAL EDUCATION BLDG. EDUCATION

### PROJECT NARRATIVE

We're thrilled to share exciting progress from the University of California, Merced Medical Education Building, a project that will bring much-needed medical training facilities to the Central Valley. This 4-story, 203,500 sqft. facility will be home to future academic and research breakthroughs and will house:

- The departments of Psychological Sciences and Public Health
- The Health Sciences Research Institute
- Allied healthcare-related programs (developed in partnership with community colleges)
- A range of medical education and general assignment learning environments, including specialty learning spaces for anatomy, medical simulation, and a clinical skills training center.

KEY PROJECT DATA	
<b>203,500</b> Square Feet	<b>56</b> Days to Erect Steel

### STAKEHOLDERS

Owner	Peralta Community College District / University of California
